

The Naughty Green Frog

One day Eve went running in the park, then she saw Ben in the park and Eve went for a swim in the water fountain. Eve's friend Ben joined her. Unknown to them lurking at the bottom was John, a devious frog. John hops away and steals the jewels from the Tower of London. These were going to be used for the royal wedding. Louis, a small green frog, was a guest at the wedding. Eve and Ben saw Louis, and told him about John stealing the jewels. They got together and stopped John from ruining the wedding.
