

Louis the Frog, a Mystery Story

The Queen frog, Victoria had a crown that was very special. Within the crown were some very special and valuable Jewels. One of the jewels was a large Red Ruby in the shape of a Frog. It was known as the Jewel of the frogs.

One night when they were all asleep in the frog castle, a nasty toad called Black Nightmare broke in and stole the crown! In the morning when Queen Victoria found out that her crown had been stolen she was so upset that she offered a large reward to the person who could find the crown. There was a young frog named Louis and he wanted to go out and find the crown, so he asked Queen Victoria and she said yes so he set off on an incredible journey in search of the crown and the Jewel of the frogs.

Firstly he asked for help from his friend 'Old Max' the Fox. He asked for a magical map that was related to the Jewel of the frogs and could show exactly in the Kingdom where the Jewel was being taken. He set off towards the deep dark forest where danger lurked in the shape of wolves and bears in the shadows. He had to show tremendous courage to avoid these creatures. Once he bumped into a bear and used his magical shield that shone in the sunlight to blind the bear so he could escape. Next he had to climb the tallest mountain in

the kingdom. On this mountain lived a Yeti called 'Rupert'. Rupert was a friend of Louis and he told Louis about where Black Nightmare was keeping the crown and said you must journey to the cave of misery alone. Rupert could not travel with Louis as he was too old.

Then Louis set off for the cave of misery where the crown was being kept. The cave was very dark and gloomy and had slime on the walls, YUK! He saw Black Nightmare and said "you are under arrest". Louis brought Black Nightmare back to the Queen, who gave Louis the reward. The reward was that Louis could have his pick of the lily pads in the royal garden pond. Louis chose a pad near to the palace so if the Queen ever needed him again she would be able to find him easily. He lived here happily ever after.
